

Pilot Program Special Use Permit at Mokuleia section of Kaena Point State Park Reserve

To develop a pilot special use permit process for the Mokuleia section of Kaena Point State park Reserve, the following ideas for permits and conditions are offered:

1. Pilot Monthly Overnight Special Use Permit for Kaena Point.
 - a. Initial Special Use Permit period is for one month, to be reissued monthly, subject to DLNR discretion. If pilot is successful, permit periods may be extended to several months.
2. Requirements for the permit include, but are not limited to:
 - a. Complete an application;
 - b. Show drivers license, proof of vehicle insurance and registration;
 - c. Agree to all permit conditions, including signing that they've read the conditions and agree that any violation will result in an immediate revocation of their permit;
 - d. Permittees who have had a permit revoked for minor violations may be authorized to reapply for another permit the next month if the pilot is still operating; but two strikes (violations) and they are out of the pilot project.
3. Permit conditions will include:
 - a. Permit authorizes use of one temporary canopy with up to two sides, but no sleeping gear;
 - b. Up to three specific locations will be designated for overnight Special Use Permits between the start of the Kaena Point State Park to no more than one mile past the end of the paved road. Permitted canopies and permittees' vehicles are limited to the designated locations one hour after sundown. (Input from the Advisory Group is requested to identify these areas) Fishing is not limited to the designated locations: fishers are free to fish where they chose.
 - c. Permits will authorize overnight canopies on Friday through Tuesday only; no canopies on Wednesday and Thursday nights.
 - d. All persons using the designated locations must be listed on the permit. No more than ten (10) people may be listed on any monthly permit.

- e. Permittees will sign in, either at Camp Erdman, or at a hunter check-in type station, so the department can collect data to monitor and evaluate demand, maintenance and management requirements.
 - f. Permittees will follow Park rules, including no alcohol, no illegal drugs, no animals, no littering, no dumping coals and no driving off designated roads.
 - g. Clean up area used; no trash pickup so remove all rubbish.
 - h. No open fires (all fires contained in hibachi, smoker or other self-contained unit). No burning of pallets or fireworks.
 - i. No generators, amplified music after sundown, firearms.
 - j. Permittee understands there is no water or sanitary facilities at this park, and agrees to provide their own portable toilet, and to properly dispose of waste off the State Park site.
 - k. No emergency or rescue services after hours. Permittees waive any and all claims he or she may have against the State of Hawaii and its respective officers, agents and employees from any suits, actions and claims arising out of or in any way connected with the activities permitted under this permit.
- 4. Pilot Special Use Permits cost \$10 per month.
 - 5. DLNR reserves the right to cancel the pilot project depending on the level of demand, noncompliance, and budget reductions and restrictions.
 - 6. All State Park Rules continue to apply to anyone without a Special Use Permit and will be enforced by DLNR.
